

Fact Sheet

An Added Layer of Protection for Your Members

Monitoring sanctions and exclusions between re-credentialing cycles

DataSpring Sanctions Monitoring Powered by CAQH is seamlessly integrated into the Credentialing Suite, giving your organization the information needed to maintain a high-quality provider network and ensure contracting confidence.

Automatically identify sanctioned or excluded providers

- Identifies providers with sanctions and providers who have been excluded from or voluntarily opt out of federal and state healthcare programs, such as Medicare and Medicaid.
- Uploads data to the DataSpring portal nightly and flags any sanctioned or excluded providers on an organization's roster.
- Includes a screen capture of the sanction or exclusion in the alert along with additional details a plan may need.
- Enables custom reporting and on-demand searches by provider name, state, date range, or record type.

Improve the safety of your network

- **Automated data extracts** for 700+ state licensing boards and federal sources.
- **Reduces staff time** spent researching, reviewing and reporting sanctions and exclusions.
- **Provides timely information** for provider credentialing and evaluation decisions.
- **Improves network quality** by quickly identifying sanctioned or excluded providers and alerting the health plan.

A vigilant approach to provider data

DataSpring continuously monitors state licensing boards and other federal sources for sanctions, exclusions, or disciplinary actions. The solution identifies issues, including providers who have been excluded from federal and state healthcare programs such as Medicare and Medicaid, and flags all sanctioned providers on health plan rosters, automating a manual process.

NCQA-certified CVO
